The event organisers will total up your points .

There are 14 coloured eggs (5 blue, 4 green, 3 red and 2 yellow) displayed in the front window of 14 houses - one in each street listed above. Write down the house number, the colour of the egg you find and the letter on the egg. See if you can spot 4 houses with a chick hidden in the front garden. You score points for each egg/chick you spot and write down and the house numbers are added up. Then try and unscramble the letters to fill in the Easter message below - the letters go into the corresponding box below - so the letters on the 2 yellow eggs can only go in 2 spaces below! working out the Easter message is worth 500 points. Don't worry if you dont find all the eggs - do as many as you can - you may still be able to work out the message and score 500 points.
